

Grant Awardees For Electric Vehicle DC Fast Charging Station Locations

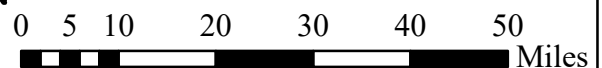

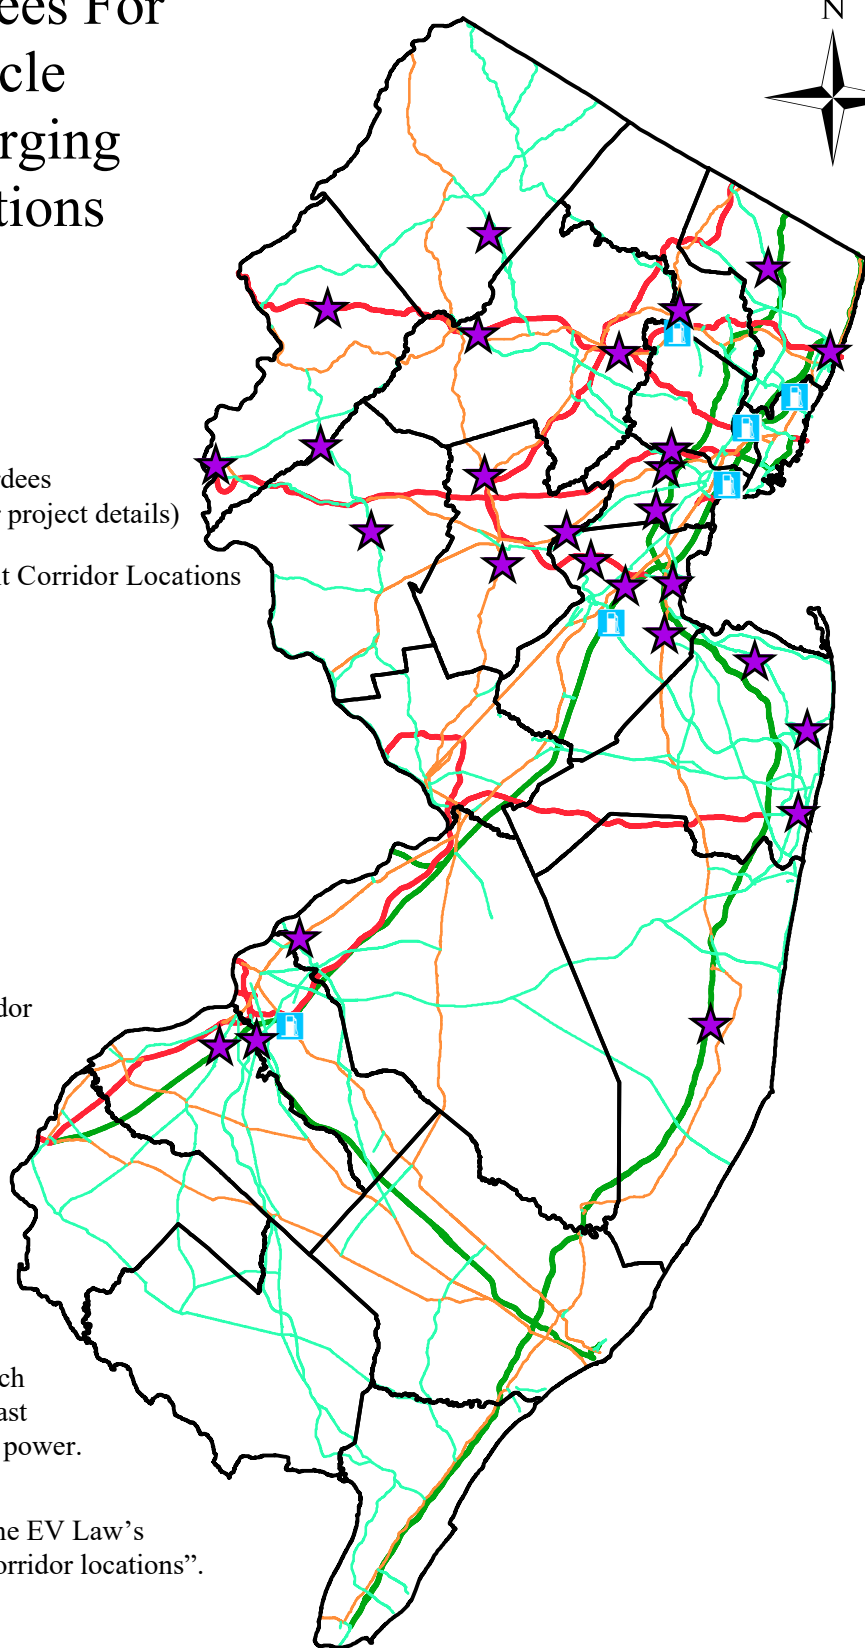

- ★ DCFC Grant Awardees
(Click each star for project details)
- 📍 Existing Compliant Corridor Locations

Roads (Major)

- Toll Road
- Interstate
- US Highway
- State Highway

Existing Compliant Corridor Locations meet the requirement for “travel corridor locations” in New Jersey’s EV Law, P.L. 2019, c.362. Each location is available for public use on a heavily used public road, and is equipped with at least two DC Fast Chargers, each capable of providing at least 150 kilowatts of charging power.

All grant awardees meet the EV Law’s requirements for “travel corridor locations”.
